EDUCATION

Zhejiang University

Sep 2021 - Jul 2025

- Major in Economics(Honor Track), School of Economics
- Minor in Mathematics and Applied Mathematics, School of Mathematics
- GPA: 3.9/4.0 ; 88.67/100
- Main Courses: Macroeconomics, Microeconomics, Econometrics, Linear Algebra, Mathematical Analysis, Ordinary Differential Equations, Mathematical Statistics, Real Variable Analysis, Stochastic Processes, Partial Differential Equations, Python Programming, Statistical Analysis Software

RESEARCH EXPERIENCE

Research Assistant

- I have worked as a research assistant of Kang Zhou (Assistant Professor, Zhejiang University) since 2023 and have contributed to three projects.
- In the first project, I have been extensively involved in the discussion of the model setup and mathematical proof. In the remaining projects where I'm mainly responsible for the data analysis and others.

S RTP Program

- I, as the team captain, completed a school level research project related to labor mobility and marriage rate.

HONORS & AWARDS

National Scholarship	2023.10
Zhejiang University First Class Scholarship	2023.10
First Prize in National College Student Mathematics Competition	2023.01
Outstanding students of Zhejiang University	2023.09

EXTRACURRICULAR ACTIVITIES

Enterprise Survey for Innovation and Entrepreneurship in China, ESIEC

- This research activity was organized by Peking University. As a interviewer, I visited enterprise owners in Yuyao County, Ningbo City and completed more than 50 survey questionnaires, which provided me with the precious chance to experience the real process of data collection.

Student Organizations and Social Work

- During my time in Freshman, I served as the Youth League Branch Secretary and joined the student union, serving as a staff member for a year, which strengthened my organization and communication skills. In terms of volunteer service, I have volunteered multiple times during the epidemic period for nucleic acid testing work.
